

RECOVERY ROOM

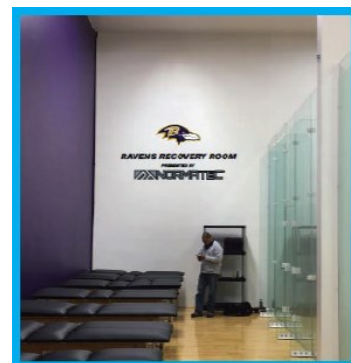

POWERED BY

NORMATEC

Introducing the Recovery Room for your Clinic or Gym

- **Recovery Modality** for your athletes to use between sessions.
- Innovative addition to your Clinic or Gym. **Fantastic P.R.** for your business.
- **Recovery** is huge now.
- Additional **Revenue Stream**. Investment covered—2/3 mths of moderate use.
- Athletes **do not need to be monitored** in the Recovery room—you're free to work with other clients.
- **Design Support** from 'Sports Physio & Performance' in terms of additional equipment to fully kit out the Recovery Room & compliment the Normatec system.

Recovery Room Design We would recommend adding some additional Equipment to the Recovery Room that will compliment the Normatec system. Stretching devices such as rollers, stretching straps etc that you may already have or that we can provide. Also to consider one of our Cold Therapy Recovery Systems to help with an injury. Also very popular are our Compex Muscle Stim Rehab Devices. We can help support you in the layout design of the Recovery room
