C2-PRO reformer

The Align-Pilates C2-Pro is an incredibly versatile piece of commercial Pilates apparatus which has been designed to grow with your studio. The C1 Pilates Reformer from Align-Pilates broke new ground in the European Pilates community in 2014, making a commercially warranted reformer available for only a shade over £1,000 + VAT! Now the 5th generation C2-Pro replaces the C1-Pro which launched in late 2016. Whilst the C1 Pro introduced a raft of new functionality to the earlier C Series Reformers, including the potential for either full or half cadillac frames, the C2 Pro brings major performance improvements to the series, together with a host of subtle refinements that together make this the leading reformer in its class, whilst still offering unrivalled value for money.

features

- Light commercial warranty - perfect for Studio and home use.
- Travel: 106.5cm
- 3 position head rest
- Foot bar positions : 4 positions inc. flat
- Removable & lockable shoulder rest
- Removable rope risers with 7 height positions (if leg extensions are used)
- Height adjustable feet for perfect alignment
- Align-Pilates 'silent' system with metal free double loop handles, ropes & foot strap and now patented silent pulleys for a super quiet user experience
- Resistance: 5 nickel plated quality music wire springs 3 different strengths (2 light, 2 medium and 1 strong)
- Rapid rope length adjustment system adjusts both ropes simultaneously, with 7 rope length variations
- Space saving – The C2-Pro is wheeled for ease of movement & storage and can be stacked or stood against a wall. It can “free stand” when selected with the extension leg option*
- Improved anodized aluminium runners with new self centering carriage for smooth and jam free operation
- ISO20957-1 Class S Item.
- New self-lubricating German engineered plastic wheels for a smoother, quieter ride and dramatically reduced maintenance
- Max User Weight: 150kg. Suitable for users: 145cm - 193cm (4'10" - 6'4")
- Ships 95% assembled and ready to use. Weighs only 59Kg.
- Standing height for storage: 238cm

THE C SERIES PILATES REFORMER [R]EVOLUTION

2015 C1 Reformer was born
1st Commercially warranted
reformer costing under £1,250 inc
VAT launches in Europe! At
last.....

2016 The C1 evolves into the C1R
The 2nd generation C1R was born - bringing the option of leg
extensions to raise the working height whilst allowing the reformer
to free stand. The C1R introduced "silent" ropes and handles,
abandoning the metal hardware for a quieter user experience.

2017 The C1R turns Pro!

For 2017 we decided our bestselling reformer
deserved more - so we made it possible for the Pro
to accept a Half Cadillac (works with both leg
heights) and going one step further to have a Full
Cadillac option!

On the reformer itself we upgraded the rope
adjustment system to that of its bigger brother,
the A2R11 and introduced new whisper quiet
wheels made from a special European
engineered plastic for the quietest ride yet. We
changed to removeable shoulder rests to improve
the stack ability & to enable a completely flat
matwork station.

Looks count too and aluminium
is not for everyone, so the C1-Pro
now comes in a wood effect version for those
wanting a reformer that looks like wood but has the
reliability of aluminium! Plus, it is more scratch
resistant too! Another first from Align-Pilates!

C2-Pro takes the C Series to new heights!

The C2 Pro adds 6cm of travel & a 6cm longer carriage in the same
overall size whilst remaining compatible with all C Series accessories!
Performance improvements include a locking foot bar and patented silent
pulley plus a self-centering carriage system for the smoothest and
quietest ride to date.

2017 price comparison

The C2 Pro retains the title for the best value light
commercial reformer on the market despite also being the
most versatile and adaptable too - ensuring the C2 Pro
evolves with your Pilates lifestyle!

HERE'S TO THE NEXT GENERATION!
