

# NORMATEC®

FRESH LEGS FASTER™

# NORMATEC PULSE

We've redefined recovery again with the new NormaTec PULSE Recovery System. Packed with new features and our patented technology, rapid recovery is achievable everywhere you compete.

Complete, *digital*,  
control of your  
experience

Recovery *anywhere*  
with our ultra  
portable design and  
internal battery

Patented NormaTec  
*Pulse* Technology

Recovery Flush with  
an *intensity* for every  
athlete

Extra attention where  
you need it most with  
*Zone Boost*

# NORMATEC PULSE PRO

With new interactions and capabilities, our **PRO** system is the most advanced **rehab and recovery** solution on the market. Customize every aspect of your compression with our advanced **touchscreen** interface.

Fully customizable through our powerful **touchscreen** interface

*Rehab and Recovery* in one small package

Recovery *anywhere* with our ultra portable design and internal battery

Recovery Flush for *quick and easy* sessions

Extra attention where you need it most with *Zone Boost*

Patented NormaTec *Pulse* Technology

# NORMATEC ATTACHMENTS

## ARMS

## LEGS

## HIPS

## ALL SYSTEMS FEATURE

Patented NormaTec Pulse Technology massage pattern

Internal battery

Overlapping zones for maximum recovery

Dual hose with quick connectors

Boots with zippers and attachments with integrated tubing

Calibration phase for a perfect fit every session

2YR

Two year warranty

Legendary NormaTec durability and premium materials

Recovery Flush with 30-110 mmHg range

World voltage compatible power adapter (100-240V)

Whisper quiet

Lightweight and small (= 3.5 lbs, 4" x 5" x 9")

Zone Boost for a targeted boost in time and pressure where it is needed most

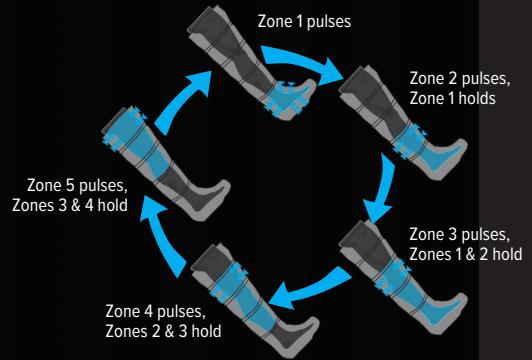

Precise, digital control and accuracy

# THE TECHNOLOGY.

Created by a physician bioengineer (MD, PhD) to enhance blood flow and speed recovery.

Patented *NormaTec Pulse* compression:

- // Pulsing - dynamic compression mobilizes fluid
- // Gradient Hold - prevents fluid backflow
- // Distal Release - allows normal circulation

# TRUSTED BY PROS. BACKED BY RESEARCH.

Cutting edge NormaTec research:

// ***Dynamic Compression Enhances Pressure-to-Pain Threshold***

Journal of Strength & Conditioning Research  
2015 May; 29(5):1263-72

// ***Peristaltic pulse compression upregulates PGC-1 $\alpha$  and eNOS in human muscle tissue.***

Experimental Physiology  
2015 May 15

// ***Peristaltic pulse compression of the lower extremity enhances flexibility.***

Journal of Strength & Conditioning Research  
2014 Apr; 28(4):1058-64

// ***Peripheral conduit and resistance artery function are improved following peristaltic pulse compression.***

European Journal of Applied Physiology  
2015 May 16
