

A2RII EXPLORED

A2 JUMP BOARD

A2 JUMP BOARD

A large jump board is available separately that fits the A2* Series reformers. The Jump Board can be added at a later date without need for modification.

A2 MATTRESS CONVERTER

A2 CARDIO JUMP DOME

A2 CARDIO JUMP DOME

The Cardio Jump Dome is a great alternative to the traditional jump board offering a softer jump experience. Unlike a trampoline the air dome flattens on impact offering a more natural landing for the foot. The jump dome concept only works on an A2 Series Reformer as other reformers simply do not have enough travel to accommodate it!
