Standard Hardware Pricing

Item	Details	MSRP
Laser module (Item #: D101)	Single sensor and reflector that can perform tests that require a single sensor (i.e., pro agility, lap, T-test, etc.). Phone, tripods, and case not included.	€273
Regular Tripod (Item #: D102)	Individual tripod	€23
Mini Tripod (Item #: D103)	Individual small ground tripod (used for starting a dash)	€18
Reflector (Item #: D104)	Individual reflector	€6
React Modules (Item #: D105)	A set of two wirelessly controlled timing lights for reaction agility testing.	€545
Case (Item #: D106)	Aluminum carrying case	€45

Laser module

Dashr Hardware Accessories Pricing

Item	Details	MSRP
Phone Holder (Item #: D107)	Tripod mounted holder for a phone	€9
Weight System (Item #: D111)	Canvas tripod sling for one regular tripod. Allows user to weigh down a tripod in instances of heavy wind. (Only necessary for older AL tripods)	€9
Heat Shield (Item #: D112)	Shield to protect your laser from the sun and rain.	€27
RFID Tripod Clip (Item #: D113)	Clip to attach an RFID module to a tripod beneath a phone/phone holder. Reduces the number of tripods necessary to travel with and set up.	€18

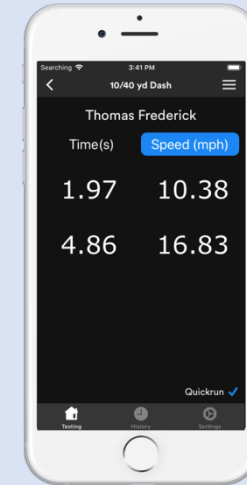

Heat Shield

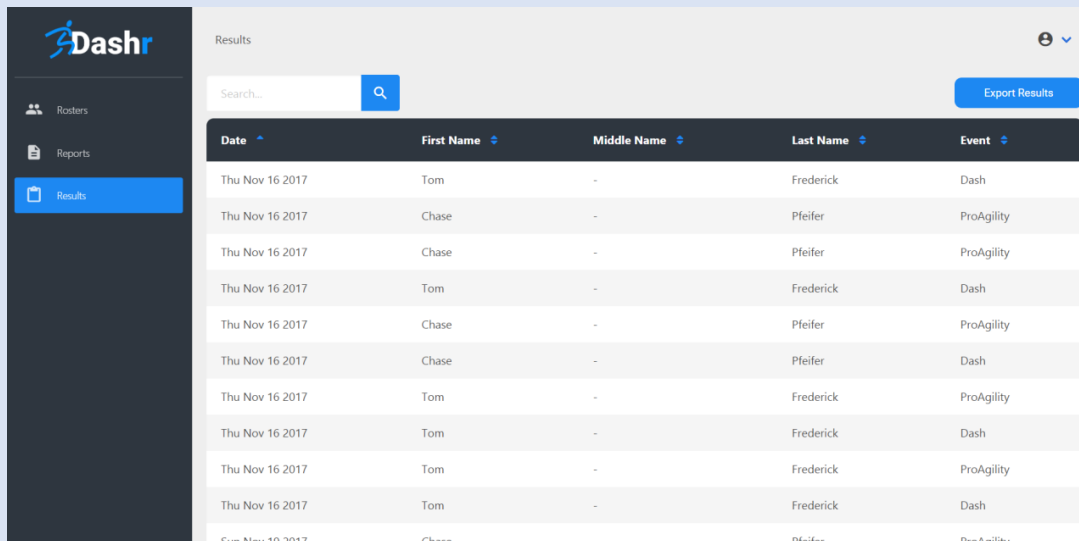

Dashr-Sprint Software Pricing

Pricing accurate for 90 days from receiving catalog

Item	Details	MSRP
Dashr Roster Spots - 100 (Item #: D304A)	Unique roster spots for Dashr Sprint – 100 count.	€200
Dashr Roster Spots - 250 (Item #: D304B)	Unique roster spots for Dashr Sprint – 250 count.	€460
Dashr Roster Spots - 500 (Item #: D304C)	Unique roster spots for Dashr Sprint – 500 count.	€800
Dashr Roster Spots - 1000 (Item #: D304D)	Unique roster spots for Dashr Sprint – 1000 count.	€1400

Mobile App

Dashboard – Results Page

Dashr Sprint is an information management platform for athletic performance testing data, allowing for better management of rosters and athlete testing scores. The software uses the Dashr app to automatically link testing data to specific athletes. Simply upload your team or combine's roster to the online portal, link your phone to your account, and get ready to test! The additional features of Dashr Sprint are compatible with all existing Dashr 2.0 timing systems hardware.

Pricing of Dashr Sprint is based off roster spots, which can be purchased in bundles of 100 or more. Each new athlete requires a roster spot that stays with them as long as they are in your program. An athlete can stay on your roster for an indefinite amount of time without incurring additional roster charges. Jump data and biometric information can be added, creating a more complete picture of each athlete. Roster spots cannot be reused for other athletes; a new athlete requires a new roster spot.

Dashr | React

Pricing accurate for 90 days from receiving catalog

Product	Details	MSRP
React – Single Module (Item #: D401)	React wireless LED module.	€273
React – Two Module System (Item #: D411)	2 React wireless LED modules with 2 tripods (case not included).	€545
React – Reactive Shuttle (Item #: D421)	2 React wireless LED modules with 2 tripods, 1 timing gate (2 regular tripods, 1 laser module, 1 reflector), carrying case.	€773
React – Reactive Agility (Item #: D422)*	2 React wireless LED modules with 2 tripods, 4 timing gates (8 regular tripods, 8 laser modules, 8 reflectors), 2 carrying cases.	€1,409
React – Outdoor Reactive Agility (Item #: D432)*	2 React wireless LED modules with 2 tripods, 4 timing gates (8 regular tripods, 8 laser modules, 8 reflectors), 2 carrying cases, 8 weight systems, 2 additional regular tripods and phone holders, 4 Heat Shields.	€1,609

*The Outdoor Reactive Agility Kit is the most versatile timing system that we have. 4 gates gives the flexibility of high detail sprints (multiple splits) or multiple drills at once. The React modules allow for reaction testing as well. This has become very popular.

Dashr | Jump

Product	Details	MSRP
Dashr Jump (Item #: D601)	Dashr Jump module, calibration tools, rechargeable battery., and 100 Roster Spots	€773

Dashr Jump – Battery (Item #: D602)	Rechargeable USB battery.	€45
-------------------------------------	---------------------------	-----

NOTE: Using Roster Spots (D304) with this makes Dashr Jump most efficient.

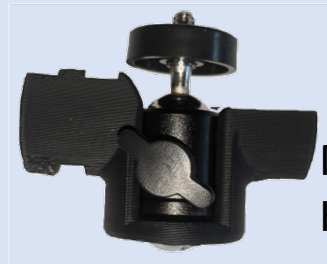

IMPORTANT: A Vertec jump station is required to use this product. Other vane based jump systems will also work, but the customer will need to modify how Dashr|Jump attaches to their device. This is doable, but not recommended.
