Your intelligent training partner

COMPEX.INFO

Compex[®]

Your intelligent training partner

REVEAL
YOUR NATURAL
POWER

NEW RANGE

COMPEX, THE PARTNER FOR PEOPLE WHO WANT TO GO FURTHER...

Because you want to optimize your performance, sculpt your body, reach your goals faster, train safely and recover with total peace-of-mind, Compex concentrates both smart technology and in-depth physiological knowledge inside a compact and friendly device that helps unleash the natural power inside you.

...AND FOR THOSE WHO WANT TO FEEL MORE FREEDOM.

Thanks to its exclusive wireless technology, Compex brings you greater freedom of movement and enables you to use your electrostimulator while you exercise.

MI, PERSONALIZED STIMULATION ADAPTED FOR EVERY PHYSIOLOGY

Equipped with unique MI (muscle intelligence) technology, Compex stimulators adapt to each of your muscles to provide the most effective electrostimulation possible, while offering greater comfort and better performance.

MI, HOW IT WORKS

MI-SCAN

scans the muscle and automatically adjusts stimulator parameters to your physiology.

MI-ACTION

optimizes session effectiveness by combining voluntary contractions with electrostimulated contractions, giving you total control over your workout.

MI-TENS

makes it easier to adjust stimulation levels for pain relief programs to ensure optimal results.

MI-RANGE

indicates the optimal level of stimulation to use for Recovery and Massage programs.

MI-AUTORANGE

a brand new feature that enables your Compex module to determine the most appropriate level of stimulation automatically .

COMPEX, A COMPLETE PRODUCT RANGE TO REVEAL THE NATURAL POWER OF EVERY ATHLETE...

FITNESS RANGE

Increases your strength, sculpts your body and tones your muscles.

Programme offer

NEW
Fit 1.0

**Sculpts your body,
tones your abs
and relieves pain.**

The stimulator for fitness and health fans who practice their activity 1 to 2 times per week.

NEW
Fit 3.0

**Restores strength
and muscle tone while
relieving pain.**

Including all the features of Fit 1.0
and MI-technology, Fit 3.0 also offers
massage programs for fitness fans
who practice their activity 3 times
per week.

NEW
Fit 5.0

**Develops your muscles,
sculpts your body
and helps you relax.**

Designed for people who workout daily, Fit 5.0 is the ultimate product in the range, as it also includes Compex wireless technology. Delivered with 2 stimulation modules, Fit 5.0 is also modular, with the option to add 2 additional modules for even more effective performance.

NEW
SP 2.0

**Tones your muscles,
sculpts your body,
helps you relax
and recover faster.**

With all the basic electrostimulation features and MI-technology, SP 2.0 is the ideal partner for athletes who practice their activity 1 or 2 times per week.

NEW
SP4.0

**Improves your strength
and restores muscle volume,
helps you relax and recover
faster.**

Including all the features of SP 2.0, SP 4.0
also offers rehabilitation programs that
can be helpful for athletes with frequent
injuries who practice their activity 3 times
per week.

NEW SP 6.0

**Improves your strength
and restores muscle volume,
helps you relax and recover
faster.**

Designed for athletes who practice their activity more than 3 times per week, SP 6.0 includes all the features of SP 4.0, but with wireless features that ensure total freedom of movement. Its easy-to-use color screen even shows you where to place the electrodes!

NEW SP 8.0

Optimizes your strength and endurance, helps you recover faster, while helping to avoid injury and treating pain.

Designed for athletes who workout every day, SP 8.0 is the class-leader in terms of electrostimulation. Connectable and modular, SP 8.0 includes the brand new MI-Autorange feature that continually brings you better results.

Do not use your Compex in water.

COMPEX ACCESSORIES

PERFORMANCE ELECTRODES

- For optimal stimulation efficiency use Compex electrodes.
- Extended lifespan.

MOTOR POINT PEN

- Helps you place electrodes correctly to improve stimulation, comfort and effectiveness.

ADDITIONAL WIRELESS MODULES

- Upgrade your Fit 5.0 to 4 channels.

COMPEX GEL

- Improves stimulation, comfort and effectiveness.
- Recommended for dry or very hairy skin.

HOLDING STRIPS

- Holds electrodes and modules when you combine exercise and electrostimulation.

PROTECTIVE CASES

- Protect your Fit 5.0, SP 6.0, or SP 8.0 remote control.

Order your Compex carrying and protective accessories and consumables on our site,

MARC HERREMANS

Trainer and Ironman Triathlon World Champion

"Throughout my career I've always been a big fan of Compex. It has helped me recover faster and train harder. After my injury in 2004, working with Compex became even more significant for me.

It helps me to keep my muscles toned in parts of my body where I cannot train them anymore. The device also plays a major role in keeping the blood flow going. I can't stress enough how imperative that blood flow is for paraplegics.

Keeping my muscles toned and maintaining a constant blood flow has advantages on multiple levels and it prevents injuries such as pressure sores.

Compex has evolved from being important in my training to being essential in my life. With the wireless technology, everything just became a lot easier and I can use Compex even more frequently, in many different places and just with a lot more simplicity and efficiency. Working with a wireless Compex is something I had always hoped for, but never really thought it would be possible. Until now..."
