

Overview:

An extremely strong and rigid couch designed for various manipulation procedures and suitable for constant heavy use, featuring a twin-spine frame for additional strength. This model features a short head section with breathing hole, plug and height-adjustable armrests designed to reduce tension and provide additional comfort for the patient during prone treatments. Both the head and foot sections offers positive and negative positioning.

Model 515E with optional Foot Extension, Foot Ring Switch and Linked Castor Base

Standard Features

- UK designed & manufactured
- Lifetime frame & 5 year parts guarantee
- Safe working load & lift capacity 250kg
- 16 year average lifespan
- Choice of electric or hydraulic operation
- Very strong & rigid twin-spine frame
- Short head section
- Breathing hole & plug
- Height-adjustable patient armrests
- Hinge covers
- Gas strut operated head & foot sections
- Chrome release levers
- Retractable castor base

Product Benefits

- UK designed & manufactured with long-term support
- Lifetime frame and 5 year parts guarantee providing longevity of product life and value for money
- Safe working load of 250kgs to cater for very heavy patients
- Choice of electric or hydraulic height operation
- Breathing hole & plug for prone treatments
- Foot section adjusts between -25° for flexion and extension of the back and lower limbs
- The short head section design provides optimal angular adjustment to position the patient for head and neck procedures such as cervical traction and mobilisation etc
- The head section incorporates height-adjustable armrests to promote a relaxed shoulder girdle during prone treatment
- Twin spine frame and dual lift design provides an exceptionally strong Plinth, suitable for various manipulation procedures and constant heavy use
- Retractable castor base system for ease of transport and positioning
- Customisable to meet individual user requirements

Technical Standards

- Safe Working Load & Lifting Capacity 250kg (250lb / 39 Stone)
- IP Rating - IPx4
- EE Classification - MDD93/42/EEC Annex IX Class 1
- Electrical Standard - IEC601 Part 1 + 60601. P (EN)
- Vinyl flame retardant to CRIB 5 (BS 5852)
- Foam flame retardant to BS 5852: Part 2: 1982, Ignition Source 5 [CRIB 5]
- CE Marked
- Externally audited to ISO9001:2008 by LQRA
