Working with reputable Partners

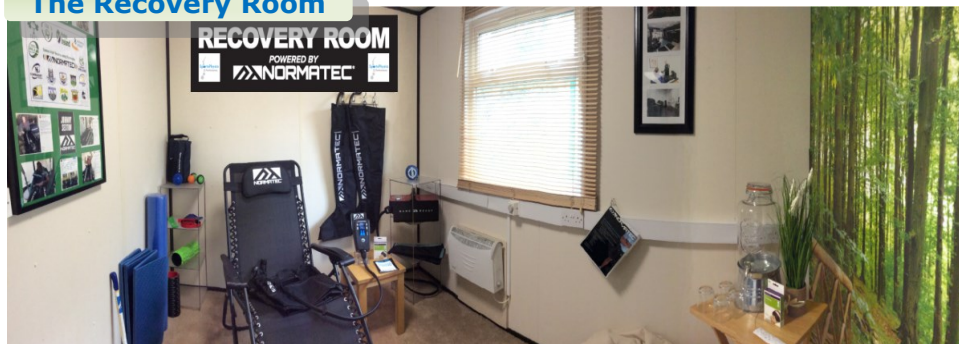

"Plinth 2000 have been working closely with Sports Physio Supplies since 2007. We personally delivery to the customer directly & provide Service & Backup support to Sports Physios Supplies' customers"

"DJO global & Chattanooga are proud to work with Sports Physio Supplies to provide high quality equipment and training to physiotherapists in Ireland for over 12 years"

The Recovery Room

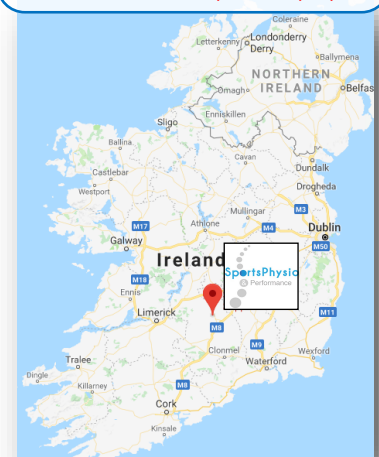

The Recovery Room for your Clinic, Rehab or Gym area

- * Allow recovery between training.
- * Great addition to your Facility. Recovery is huge.
- * You're free to work with other clients while your athlete/patient is using the Recovery room.
- * Clinic becomes destination for athletes that are not injured & who just need a recovery session.
- * Rent to your athletes or teams at weekends if clinic is closed. Very good promotion opportunity.
- * Excellent for Rehab of Injured athletes & patients
- * Additional Revenue. 3 mth return.

Demo Show Rooms

Visit our Demo show rooms to view potential clinic layout options and clinic contents or try out the Equipment.
We also provide a clinic set up checklist & we can help with a proposal

Massage Equipment & Infection Control

The Plinth 2000 couch is the most popular couch on the market today. Suitable for all manipulation and general treatment techniques. Extremely well made upholstery, bolted, not screwed to the frame, solid, rigid framework. Quality hydraulic pump with pedals on either sides, or Swiss electric motor. Twin sided pedals standard on hydraulic version. All Couches are CE marked and have a wide choice of colours.

Affinity Aluminium Portable €269 + VAT
Excellent Quality Durable couch
A reliable portable couch that you can trust and transport easily is very important. There are cheaper couches on the market, however this is one of the main tools of the trade for a therapist & important purchase. Very strong and durable yet lightweight for easy portability.

Measurement & Assessment

Strength Testing

COMMANDER[®] echo

**FEATURED
PRODUCT**

150-317 **Commander Muscle ECHO Tester** Please call for pricing

Provides a wealth of information to assist you with planning treatment/rehab, evaluating progress, managing cases & rating impairment. Compact dynamometer. Records, stores and analyses up to 40 bilateral tests with up to four repetitions per side. Calculates bilateral strength deficits for objective side-to-side comparisons. Axis Compensation circuitry guarantees 99% accuracy across entire test pad. Commander consoles automatically record and store data, display test results, compute statistics and more.

Measures up to 150 pounds for very strong performers.

Automatically records peak force & calculates coefficient of variation (CV) & bilateral strength deficits

Software Options The Commander Downloader package enables you to create quick but meaningful reports from the data that you collected with your Commander Evaluation Instruments with the click of a button.

Patient Products

Patient Products at your Clinic

- Provide Rehab solution for your Patient to use at home
- We can help set up Display area and Point of Sale
- Call us to go through the Patient Product Retail Options

Lots of clinics have taken on the 'Patient Products' retail concept, offering Rehab products to their patients direct from the clinic. You're guaranteed that your patients get the correct rehab device. Referring them elsewhere they may not get it at all or get the wrong product. It also delivers a potential additional small revenue for your clinic. Here are some of the popular ones showing the clinic price & patient price. Ortho Supports over leaf are very popular for patients too.
